

API Products

Sienna Biotec Pvt. Ltd. is a trusted manufacturer and exporter of the following range of products: Empowered by immense expertise in the synthetic and organic chemistry, we manufacture a wide range of Pharmaceutical drugs, intermediates and other pharmaceutical products. With constant innovation and thorough research we can also undertake custom synthesis and manufacture procedures. Our products are reckoned for their quality.

Complex API:

Gabapentin
Pregabalin
Tioconazole
Lamotrigine
Lacosamide
Ondansetron HCL
Tenoxicam
Quetiapine (UNDER PROCESS)

APIs Intermediates:

2,3-Dichloro Benzoyl Chloride [2905-60-4]
End Product - Lamotrigine
3-(Carbamoylmethyl)-5-Methyl Hexanoic Acid [181289-15-6]
End Product - Pregabalin
3-Aminomethyl-5-Methyl Hexanoic Acid [128013-69-4]
End Product - Pregabalin
N6-Trifluoroacetyl-L-Lysine [10009-20-8]
End Product - Lisinopril
4-(2,3-EpoxyPropoxy)-Carbazole [51997-51-4]
End Product - Carvedilol

Sienna Biotec API(India)

Our Sienna Biotec API (Active Pharmaceutical Ingredients) program began in 2009 with a simple objective-facilitating the manufacture of complex API's, products for which complete vertical integration would help the business. We currently make APIs at 2 plants, including locations in Taiwan. Technical capability and dedicated sites to make complex API such as Pregabalin, Gabapentin, Ondansetron HCL and Lacosamide are an important feature of our API business.

Over time, we have been able to take this advantage to international markets, particularly to the SPAIN.

Our number of APIs with regulated market approvals such as US and European drug master files (DMFs), our plants are ISO 14001 and ISO 9002 approved.

Our ability to make high quality, complex APIs and skills in product development and scale up are expected to power our API strategy going ahead.

Sienna Biotec is a leading organization engaged in manufacturing and exporting of a wide range of bulk drugs and & raw materials like Gabapentin, Pregabalin, Ondansetron hydrochloride, Lamotrigine, Intermediates.

Every operational division at Sienna Biotec Pvt. Ltd Sienna Biotec aims to achieve the right result over time by following the validated method. Every step of production process is carefully monitored & controlled. From the raw materials to the finished product stage, a quality verification system performs inspections of products, thanks to the sophisticated instrumentations like G.C WITH HEADSPACE, U.V, AUTO POLARIMETER, KARL FISCHER APPARATUS, DIGITAL MELTING POINT APPARATUS, OVEN, VACUUM OVEN, TLC CHAMBER, WEIGHING BALANCE, MAGNETIC STIRRERS, R& D LAB GLASS ASSEMBLY, MOISTURE METER, B.D. METER, HPLC & pH METER etc. along with trained personals.

Owing to our stringent quality measures and indigenous manufacturing procedures, we have got the valued approval and patronage of different industrial consumers and administrative bodies. Our quality consciousness has helped us in getting the acclaimed approval of Food and Drug Administration (FDA)

Products:-

Pharmaceuticals

Fine Chemicals

Pharmaceutical Bulk Drugs
